Profile

Junior Full Stack Web Developer with expertise in front-end (React.js, Tailwind CSS, JavaScript) and solid back-end skills in Node.js, SQL, Firebase, and .NET technologies. Recently graduated with a Diploma in Mobile Application Programming from CCNB (Canada), with hands-on experience in building responsive websites, e-commerce platforms, community portals, and mobile applications. Multilingual (French, English, Russian) and passionate about delivering modern, user-centered digital solutions. Motivated to contribute to innovative teams.

Technical Skills

• Front-End: React.js, JavaScript, HTML5, CSS3, Tailwind CSS, Responsive Design, UX/UI, TypeScript, Angular (currently learning)
• Back-End & Databases: Node.js, Firebase, SQL (PostgreSQL), .NET Technologies, API Integration
• Programming Languages: C++, C#, Java (Eclipse), PHP, Dart (Flutter)
• Mobile: Flutter (Dart), MAUI
• Tools & Methods: GitHub, Figma, Microsoft Project, Agile/Scrum (currently learning)
• E-Commerce & SEO: Product/catalog pages, content optimization, on-page SEO, performance tuning

Key Projects

• Andrew's Lobsters – Responsive e-commerce website (React.js, Tailwind CSS, SQL, SEO best practices).

• Community Website – CICE Edmonton – Community portal (React.js, Tailwind CSS, Firebase, Node.js).

• FoodiFly – Mobile food ordering app (Flutter, Firebase).

• Portfolio (React + Flutter) – Multilingual (FR/EN) portfolio with dark mode.

Professional Experience

Volunteer Web Developer | CICE (Ivorian-Canadian Association of Edmonton) | Jul 2025 – Present
- Developed and maintained the association's community website (React.js, Tailwind, Firebase).
- Provided technical support for events and community engagement.

Software Development Intern | CCNB (Bathurst, Canada) | May – Jun 2025
- Built an intelligent chatbot integrated with Microsoft Teams (Node.js, Microsoft Graph API, Azure).
- Automated workflows for tasks, reminders, and FAQs using Microsoft Planner integration.
- Delivered user support, training, and technical documentation.

Volunteer Interpreter | Multicultural Association of the Chaleur Region (NB) | Apr 2024
- Assisted refugees from Ukraine and Russia with interpretation (French, English, Russian).
- Ensured clear and empathetic communication during sensitive interactions.

Project Analyst & Developer | Korezide.com | Apr – Jul 2023
- Analyzed requirements and contributed to the design of a vacation rental platform (mobile & web).
- Conducted testing, optimization, and documented security compliance.

IT Digital Support Specialist Intern | Optic Management Logistic (OML), Abidjan | Jun – Dec 2022
- Provided first-line IT support and maintained web systems.
- Conducted user training and produced technical documentation.
